At Cole and Leal, we represent those who have suffered due to a car or truck accident, medical malpractice, or product liability cases. We also represent individuals and their families who have been the victim of a bad faith insurance dispute after being denied the benefits of an insurance policy.

Our record of helping clients recover the compensation they deserve speaks for itself. During our years of legal practice we have successfully helped many clients obtain seven-figure settlements or jury verdicts in car and truck accidents, product liability, wrongful death, and other cases. Our record of success means that insurance companies, attorneys and judges take claims presented by Cole & Leal, P.A. with the respect they deserve.

Our partners, A. Thomas Cole, and Joseph M. Leal III have over 50 years of legal experience between them. Both Mr. Cole and Mr. Leal have practiced in many areas of law, but over the past 15 years they represented the injured in Arizona. At Cole and Leal we consider it our duty to help those who have been injured or have accidentally died due to the negligent or reckless act of another.

Call us today to schedule a FREE Case Evaluation. Once we have had the opportunity to learn about your case we can provide you with the options that may be available for recovery in your case.
